Other Scientific Contributions, Creative or Scholarly Works

- 2023- Founder & Developer of the ENRICH Healthy Teens App (patent pending)

Developed to 1) provide access to up to date and accurate sexual and reproductive health information for teens and young adults to promote health and wellness and reduce health risks of HIV, other STIs, and Pregnancy and, 2) improve teens' and young adults' ability to better understand their reproductive health with links to resources, support, and published guidelines.

The app fills a scientific gap, specifically, the need for a comprehensive, centralized source of information about teen and young adult reproductive health which is evidence-based and draws on published guidelines.

TEACHING

Contributions to Instructional Techniques, Software and Teaching Materials

Curriculum and Case Development for UIC's Rural Health Professions

Curriculum and Rural Nursing Services Concentration: Ongoing work since 2016 with a multidisciplinary team (pharmacy, medicine, public health, and nursing) to design interactive and engaging curriculum and clinical cases for medical, nursing and pharmacy students in the longitudinal rural health professions programs. In 2022-2023, the Rural Nursing Services Concentration was revised to an online **Rural Nursing Certificate Program**. These Active Learning Online Modules were developed with a team of faculty for 3 new courses each 3 credit hours for a total of 9 credit hours with the first course offered in Fall 2023.
